Piano Keys Labeled

All 88 keys of a full-size piano, A0 to C8, every white and black key named.

Black keys are named both ways (C# over Db): the same key, spelled for the key signature you are reading.

The full keyboard

Read left to right, low to high. Middle C (C4) has a ring above its name.

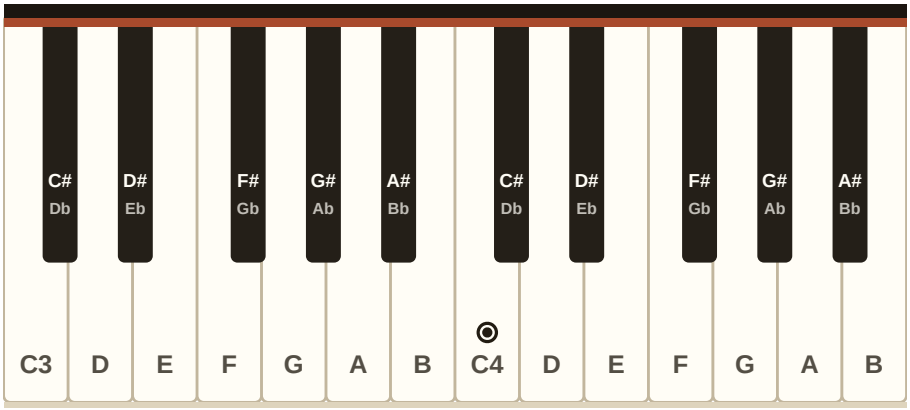
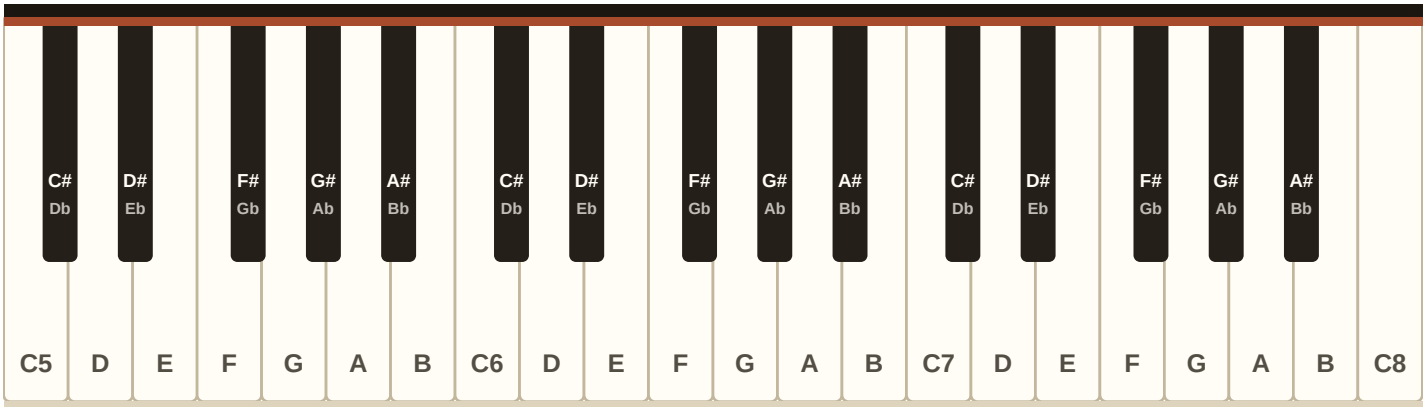
C3 to B4



C5 to C8



Finding your place

- Black keys come in groups of two and three. C is the white key just left of every group of two; F is just left of every group of three.
- Middle C (C4) is the C nearest the middle of the keyboard: on an 88-key piano it is the 40th key from the left, usually under the maker's name.
- Every C starts a new octave number: the B just below middle C is B3, the D just above it is D4.

Cut-out note labels

Cut along the dashed lines and stand each label behind its key, on the fallboard — not on the key itself, so nothing slides under your fingers.
